

APPEAL FOR INFORMATION/PHOTOGRAPHS

We have received a request from Rod Brown, a historian on the chipmunk, who is researching the **de Havilland Chipmunk** aircraft operating in Aden 1960 – 62. Rod has asked if anyone knows anything about 2 of these aircraft operating in Aden with 653 Squadron Army Air Corps. Any photographs would be very welcome.

Rod has also asked if any members, who were engine or airframe fitters on the Beverley or Austin AOP 9's could contact him at chipmunkflyer@aol.com

Rod has given his permission for his email address to be the contact for him.
